

Petryshen Boers

First Annual

BUCK SALE

SEPTEMBER 12, 2022

:: NOON ::

BEAVER HILL AUCTION SERVICES
TOFIELD, ALBERTA

Welcome

Welcome to Petryshen Boer's first buck sale! We have an exciting line up of traditional registered and Canadian registered bucks.

In my herd I select for maternal instincts, hard feet, solid long frames and clean teats. We work with our local vet to have up-to-date deworming protocols, use Glanvac 6 for our vaccine, and provide our goats with big lush summer pastures to thrive on.

I am very proud to report our 2021 herd health testing for CAE & Johnes was *negative!* We are proud members of the Alberta Goat Association & Canadian Meat Goat Association. Thank you for your interest and we look forward to doing business with you.

Please note papers may not be in my hand to pass on with bucks at time of sale. Please contact me if you did not receive papers and wish to have ownership transferred.

- Michelle

Petryshen Shouldve Been A Cowboy

BW: 7.1 lbs

DOB: 16 FEB 22

Triplet

Teats: Clean 2x2

PET 10K CR38528

10K meets you at the fence and has a nice calm disposition. This guy had a 60 day ROG of 0.3 lbs/day. We don't push grain but they have access to whole barley creep. Full series of Glanvac 6 completed on July 5/22 along with oral Valbazen & eprinex pour on. At birth he also received Once PMH intranasal for pneumonia prevention. He is out of one of my most consistent does, and boy did she produce this year with these triplet bucklings! Please note that he has a small split in the tip of his scrotum.

Offering one of my herd sires for sale as he's worked himself out of a job. If you're looking for a buck that will work hard and cover alot of does, he's your man. He is used to being out on pasture and pushing bush, hasn't been sitting in a barn. Trained on electric fence and respects it. Tested negative in June/21 for Johnes & CAE. Kids over the last two years are averaging 0.4 lbs/day rate of gain on 90 day weights. Yearly vaccinated with Once PMH intranasal. September 2021 he received his annual Glanvac 6 vaccine. In March he recieved oral Valbazen, feet trimmed and Eprinex pour on.

Petryshen Boers

See you next year!
